

**NORTH LANARKSHIRE  
COUNCIL ARE INVESTING IN  
SUSTAINABLE TRANSPORT  
IMPROVEMENTS IN  
MOTHERWELL TOWN  
CENTRE THROUGH THE  
MOTHERWELL STATION  
ACTIVE TRAVEL LINKS  
PROJECT.**

This follows on from recent major investment in Motherwell Rail Station and Muir Street where the council worked with SPT, Transport Scotland and Network Rail through our Glasgow City Region City Deal project to improve public transport facilities.

With funding support from SPT, the Scottish Government's Place Based Investment Programme and the UK Government's Shared Prosperity Fund, we have carried out design work and are undertaking work on West Hamilton Street this year to improve crossings arrangements for pedestrians and cyclists; widen footways to enable shared use for walking, wheeling and cycling and repair bus laybys.

The work will start on 15th July and is expected to finish early October.

## Timescales:

The work at West Hamilton Street is planned to start on 15th July and expected to finish early October.

Other phases of the project are planned in the future, from Asda to the Civic Centre; on Hope Street and Muir Street next to Motherwell Rail Station and on Bellshill Road, depending on funding.

It is aimed to complete the full project by 2027.

## Access:

Access to residential properties, businesses and service yards will be maintained at all times during the work.

Detail on any temporary changes or restrictions to normal access arrangements will be provided to residents and businesses by the contractor in advance.

Traffic and pedestrian management will be in place during the work so that work can be carried out safely. Traffic management plans are available to view on the project webpage on the council's website.

Advance warning signs will also be put on site by the contractor before any temporary road closures for resurfacing work.
