The Plan for North Lanarkshire  
**PROGRAMME OF WORK** >>>

**DIGITAL NL**

Develop a skilled digital workforce, promote an innovative, sustainable culture and be the Digital Leader for a transformed North Lanarkshire.

**TRANSFORMING PLACES**

An enhanced programme to accelerate transformation of town centres and communities.

**INVEST IN NORTH LANARKSHIRE**

Accelerated outcome delivery and investment via a more streamlined advisory service and aligned operating model and infrastructure plan.

**SUSTAINABLE FUTURES**

Focus commitments to Net Zero Carbon and climate resilience and the associated energy solutions and investments required to make it a reality.

**RESILIENT PEOPLE**

Deliver whole family support locally, when families need it, in a way that addresses the impacts of poverty and reduces inequality.

**BRIGHTER FUTURES**

Support and improve educational attainment, employment opportunities, entrepreneurship, and volunteering.

**ONE SERVICE**

Ensure services are delivered, regardless of owner, in a streamlined, efficient, and supportive model, with the overall vision of inclusive growth and prosperity for all.

# Proposal to relocate Glenboig Primary School to a new school build

## EDUCATIONAL BENEFITS

**Through the planned proposal it is expected that several educational benefits will be achieved on behalf of children and young people including:**

- Providing better learning opportunities for the children of Our Lady & St Joseph's Primary School and Glenboig Primary School.
- Currently, the use of shared spaces within the joint campus is under pressure with the numbers of children attending. The roll in both schools is likely to grow over time making the situation more difficult.
- Presently, staff find it difficult to find areas to work quietly with small groups or individual children. In this, as well as other regards, the proposal will bring benefits to all children including those with additional barriers to learning by providing space and flexibility for both schools.
- The new school will be built to facilitate greater opportunities for active and outdoor learning whilst also making best use of the latest technology to enhance digital learning.

## EDUCATIONAL BENEFITS

- Experience in new school buildings has demonstrated that a new and flexible learning environment inspires staff and pupils and has a positive impact on the general health and wellbeing of stakeholders.
- There will be the opportunity to provide similar high-quality facilities for learning to be designated in such a way as to allow a range of teaching styles and approaches, including active learning, interdisciplinary learning and outdoor learning.
- The new school will be fully accessible to disabled learners as required by the Equality Act (2010). This will be ensured through the delivery of the Council's:
  - Equality outcomes
  - Promoting Inclusive Design Protocol
  - Partnership with North Lanarkshire Disability Access Panel.
- The new school will be designed in such a way as to promote accessible, inclusive learning which will meet the needs of all learners including those with Additional Support Needs.

## EDUCATIONAL BENEFITS

- The new school will build on current, and facilitate new, opportunities for effective integrated working with other services and partner agencies and will provide necessary support to children and families in the new school catchment area.
- The new school's design, construction and operation will be environmentally and energy efficient; contributing directly to delivering the year-on-year reductions in greenhouse gas emissions introduced by the Climate Change (Scotland) Act 2009 and provide a rich context for learning for children and young people about sustainability now and in the future.

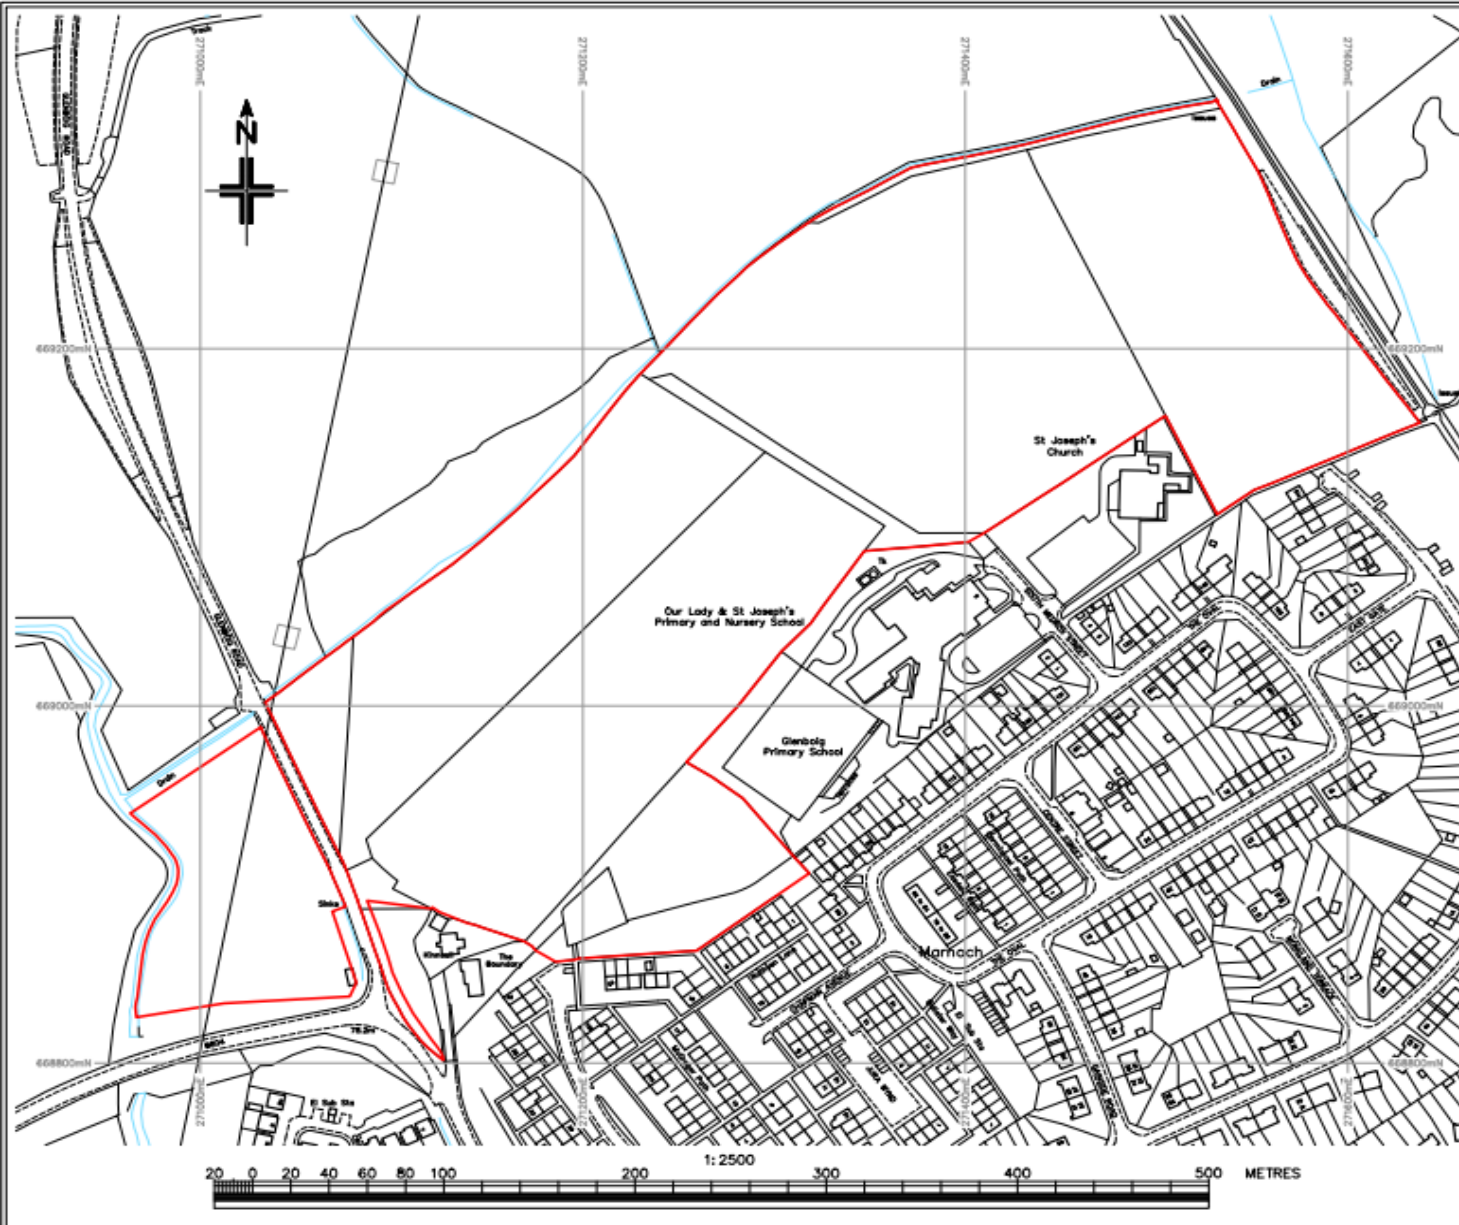

The Council is proposing the new build school will be sited in an area of land (still to be agreed) to the South West of the existing school and to the East of Glenboig Road.

## **Proposal recommendations:**

- Stakeholder agreement to provide a new Glenboig Primary School to meet the increased capacity needs of the school estate within Glenboig;
- Improving the quality of service and provision to effectively meet the needs of children, young people and families.

PRIMARY SCHOOL –  
Replacement for Glenboig Primary  
School to increase capacity

## PROCESS AND ANTICIPATED TIMESCALE

Appoint a Design Team & Main Contractor

Design Phase – approximately 18 months

Includes the  
“Intelligent Brief”  
phase

Build Phase – approximately 18 months

## INTELLIGENT BRIEF

Focus is on stakeholder engagement:

Understand the **needs** which can be incorporated into the design.  
It's about stakeholders being more **descriptive** than **prescriptive**.

Stakeholders include:

**School community:** Pupils; Parents; Staff

**Wider community:** Elected Members,  
Community Groups, etc
